

**Bahamas Marine EcoCentre  
Accepting Applications for the  
Alf Thompson  
Memorial Scholarship**

**Intern at the Bimini Biological  
Field Station, 'Shark Lab',  
15 July - 15 Aug, 2018**

Work and live at the Bimini Biological Field Station with shark and marine biology research scientists, graduate students and other interns from around the world. If you are interested in learning more about shark research and the conservation of the ocean's ecosystems then please apply for this unique opportunity!

Open to motivated Bahamians ages 20 – 26. Scholarship covers expenses for travel, food and lodging during the four-week internship.

The intern program is made possible by the Alf Thompson Memorial Scholarship, offered through Bahamas Marine EcoCentre and the Bimini Biological Field Station Foundation, both non-profit organizations promoting awareness, conservation and respect for the Bahamian environment ([www.bahamas-marine-ecocentre.org](http://www.bahamas-marine-ecocentre.org); [www.miami.edu/sharklab](http://www.miami.edu/sharklab)).
