Dates of convocation and enrollment period

April 17, 2024
to June 17, 2024

ABOUT THE EPA-OAS AND STRUCTURALIA INITIATIVES

The **Educational Portal of the Americas** has been working for over two decades to promote education for comprehensive development, reduce digital educational gaps, and cooperate with states to promote community progress. Our work has facilitated the education of thousands of citizens across the hemisphere through educational opportunities.

We are committed to Unesco's fourth Sustainable Development Goal:

- To guarantee inclusive, equitable and quality education and promote lifelong learning opportunities for all people.
- Access to quality and equitable scientific and technological education is a determining factor for social and economic development.
- Access to quality education is not a privilege, it is a right.

Structuralia is the leading school in specialized training at a global level in the field of engineering, infrastructure and energy. Since 2001, more than 115,000 professionals have enrolled in its own highly specialized training programs, as well as in advanced and master's degree programs with university degrees. Structuralia promotes more than 250 specialized courses, which make up its catalog of more than 22,000 didactic hours in formats that integrate interactivity, virtual simulation, 3D developments and audiovisual content. Likewise, it has a faculty of authors and teachers made up of more than 550 experts, who are professionals of the highest reference in each of the disciplines.

Structuralia promotes its postgraduate courses in collaboration with universities and institutions of reference in each sector (Universidad Católica de Murcia, Universidad Politécnica de Madrid, Universidad Internacional Isabel I, Universidad Da Vinci de México), and collaborates with the top national and international experts in each discipline, for the development of the training contents and the tutoring and teaching of the courses. Structuralia is also a pioneer in incorporating interactive and multimedia methodological tools in its didactic training and is currently researching training projects through mobile terminals and television. It currently has 68 online training centers established with its technology and services. Structuralia has an international presence in Spain,

Mexico, Chile, Peru, Colombia and Central America. Likewise, it has collaboration agreements with prestigious institutions in the main Latin American countries. In Latin America, it offers more than 150 courses through the Internet; in several editions throughout the year with students in more than 50 countries.

ABOUT THE SCHOLARSHIP PROFESSIONAL MENTORING PROGRAM

Benefits

- The scholarship will cover **90% of the total** cost of the selected program. This means, the student must be paid 250€.
- Benefits are subject to the scholar's academic performance to maintain the scholarship for the duration of the study program. The scholarship recipient must not be reported as academically ineligible due to absences from the program and/or failing courses. In addition, the scholarship recipient must maintain an average of 5/10 or higher in each academic period.
- Simultaneous training in a maximum of 3 STEM training programs.

Eligibility requirements

- Over 21 years.
- Eligible applicants must be nationals and/or permanent legal residents of any of the GS/OAS Member States.
- Have correctly completed all the required information and paid the registration fee.
- The OAS-Structuralia Scholarship is not open to GS/OAS staff members, persons under performance contracts with the GS/OAS, personnel of Permanent Missions to the OAS, and family members of all the above-mentioned persons. Family member" shall mean spouse, son or daughter, stepson or stepdaughter, father or mother, stepfather or stepmother, brother or sister, half-brother or half-sister, stepbrother or stepsister, father-in-law or mother-in-law, son-in-law or daughter-in-law, brother-in-law or sister-in-law.
